

**Product Formulation Statement for Documenting Grains Ounce Equivalents  
in Child Nutrition Programs**

**Crediting Standards Based on Grams of Creditable Grains**

Program operators have the option to choose the crediting method that fits their specific menu planning needs.

Food manufacturers/vendors must: 1. Provide the following information on company letterhead signed by an official company representative. 2. Use Exhibit A: Grain Requirements for Child Nutrition Programs (Exhibit A) in the "Food Buying Guide for Child Nutrition Programs" (FBG) to complete this form. 3. Provide a copy of the ingredient list from the product package.

Product Name: Breadtown Bakery Multigrain Pullman sliced Code No.: 241254

Manufacturer: C.H. Guenther Serving Size: 47g

**I. Does the product meet the whole grain-rich\* criteria?** Yes ☒ No ☐

\* Whole grain-rich is the term designated by Food and Nutrition Administration to indicate that the grain content of a product is between 50 and 100 percent whole grain with any remaining grains being enriched.

**II. Does the product contain noncreditable grains?** Yes ☐ No ☒ **How many grams?**         

(Products with more than 0.24 ounce equivalent (oz eq) or 3.99 grams (g) for Groups A–G or 6.99g for Groups H and I of noncreditable grains do not credit toward the grains requirement for school meals.)

**III. Use Exhibit A to determine if the product fits into Groups A–G (baked goods), Group H (cereal grains) or Group I (RTE breakfast cereals).** (Different methodologies are applied to calculate the grains contribution based on creditable grains. Groups A–G use the standard of 16g creditable grains per oz eq; Groups H and I use the standard of 28g creditable grains per oz eq or volume.)

**Indicate which Exhibit A Group (A–I) the product belongs:** B

|------------------------------------------------------------|------------------------------------------------------------------------|---------------------------------------------------------------------------------|----------------------|
|                                                            | A                                                                      | B                                                                               | A ÷ B                |
| Whole Wheat Flour                                          | 16.38                                                                  | 16                                                                              | 1.02                 |
| Enriched Flour                                             | 9.83                                                                   | 16                                                                              | .61                  |
|                                                            |                                                                        |                                                                                 |                      |
| Total                                                      |                                                                        |                                                                                 | 1.64                 |
| Total Creditable Amount <sup>4</sup>                       |                                                                        |                                                                                 | 1.5                  |

<sup>1</sup> Creditable grains vary by Program. See the FBG for specific Program requirements.

<sup>2</sup> (Serving size in grams) X (% of creditable grain in formula); raw dough weight may be used for serving size. Serving sizes other than grams must be converted to grams.

<sup>3</sup> Standard grams of creditable grains from the corresponding Group in Exhibit A.

<sup>4</sup> Total Creditable Amount must be rounded **down** to the nearest quarter (0.25) oz eq. Do **not** round up.

Total weight (per portion) of product as purchased 1.65 oz

Total creditable amount of product (per portion) 1.5 oz eq

I certify that the above information is true and correct and that a 1.65 ounce portion of this product (ready for serving) provides 1.5 oz eq grains.

For school meals only: I further certify that noncreditable grains **are not** above 0.24 oz eq per portion. Products with more than 0.24 oz eq or 3.99g for Groups A–G or 6.99g for Groups H and I of noncreditable grains do not credit toward the grains requirement for school meals.
